Deferred Revenues

Free Cash Flow

1: The Group adopted Revenue from Contracts with Customers ("Topic 606") on March 1, 2018. Reclassification was made from deferred revenue to accrued expenses and other current liabilities for tuition collected that may be refunded to the customers in the future if students withdraw from a course for any remaining classes.

2: The Group adopted ASU 2016-09 standard on March 1, 2017. The retrospective application resulted in a \$9.4 million and \$19.5 million reclassification of these cash outflows from operating activities to financing activities on our consolidated statements of cash flows for the years ended February 29, 2016 and February 28, 2017, respectively.

3: Capital expenditure in fiscal 2012 was US\$74.3 million. The significant increase was primarily related to the purchase of office space for headquarter in Beijing in the amount of \$62.5 million. The capital expenditure of US\$12 million in fiscal 2012 shown in the graph is excluding the impact from the purchase of this office space.
